

# Avast Mobile Security Premium

Advanced online protection for your Android device.

## Protect your privacy

Keeps intruders out of your business, both online and on your device, hides your sensitive data if your phone is stolen, secures your photos and apps, and protects your accounts.

## Block all threats

Avast Mobile Security uses one of the world's largest threat-detection networks to protect you against viruses and other malware, including ransomware.

## Enhance performance

Gives you insight into your data usage and storage space, removes unnecessary junk files to give you more space, and frees up RAM to speed up your device.

### MINIMUM SYSTEM REQUIREMENTS

Google Android 6.0 (Marshmallow, API level 23) or later  
Internet connection to download, activate, and maintain app updates

## Packed with features

FREE

PREMIUM SECURITY
